DESCRIPTION

Lead Engineer with 7+ years in React, Vue.js, and Node.js. Proven in team leadership, problem-solving, and delivering quality solutions. Committed to ongoing learning and collaboration in web development.

SUMMARY

- Proficient in frontend and backend technologies.
- Skilled in JavaScript technologies such as React, Vue.js, and Node.js.
- Extensive knowledge in frontend development utilizing HTML, CSS, and Sass.
- Experienced in working with database software like MySQL, MS SQL, and MongoDB.
- Developed applications using AWS services (EC2, Lambda, S3, SES) and Firebase services (Realtime Database, hosting, cloud functions)

EDUCATION

- 2023 Bharathiar University**
Bachelor of Computer Applications
- 2012 VNSS SN Trusts Central School**
Pre-Degree (Plus Two) in Computer Science

WORK EXPERIENCES

QBurst 2021 – Present

I worked extensively with frontend technologies, including React/Next.js, Vue/Nuxt.js, and Node.js. As a committed team player, I contributed effectively to collaborative efforts and project success.

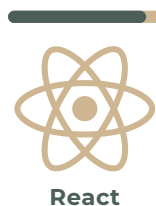

Techversant Infotech 2018 – 2021

Explored Node.js for backend, along with ColdFusion. Worked extensively with React and Vue.js for frontend. Gained AWS DevOps experience using EC2 and Lambda.

Tektide Innovations 2016 – 2018

Fullstack developer using HTML/CSS, jQuery for frontend, PHP/WordPress for backend. Also, involved in React/React Native app development.

HARD SKILLS

React

Vue

Node.js
